(54) SERVER, SYSTEM, AND METHOD FOR HTML DOCUMENT TRANSMISSION AND RECORDING MEDIUM THEREOF

(57)Abstract:

PROBLEM TO BE SOLVED: To centralize and manage the modification of an HTML document.

SOLUTION: In a client 102, a communication means 106 which sends request- to-send information of an HTML document to a server 101 and a display means 107 which displays an HTML document received from the server are provided, and the server 101 is provided with an information adding means 104 which adds information to the HTML document so that the client 102 can select a hyperlink described in the HTML document and a communication means 105 which sends the HTML document where the information is added to the client 102.
